Summary

Cybersecurity Researcher and Student Leader specializing in Offensive Security, Threat Intelligence, and AI Security. Experienced in vulnerability research with 24+ bug bounty disclosures. Recognized as a KC7 Advanced Persistent Analyst and Salesforce Agentblazer Champion. **Associate Lead** for the college VAPT cell and **Founder** of the **ThunderCipher MHSSCE student chapter**.

Experience

M.H. Saboo Siddik College of Engineering

Mumbai

VAPT Associate Lead

January 2026 - Present

- **Pioneered** the establishment of the college's first VAPT cell, architecting a **master reporting framework** used to standardize vulnerability disclosure for enterprise-level security audits.
- **Spearheading** the inaugural VAPT cell demonstration for **10+ faculty members**, presenting real-world offensive security workflows and structured vulnerability assessment protocols.
- **Delivered** technical workshops on cloud security and smart contract fundamentals for **15+ peers**, maintaining a **90% student satisfaction rate** through hands-on learning modules.
- **Secured** qualification for internal rounds of the **Smart India Hackathon (2024 & 2025)** by developing technical solutions for national-level problem statements among **500+ participating teams**.

ThunderCipher MHSSCE (Student Chapter)

M.H. Saboo Siddik College of Engineering

Founder & Campus Ambassador

December 2025 - Present

- **Pioneered** the MHSSCE student chapter of ThunderCipher in December 2025 to centralize offensive security research on campus.
- **Launched** a digital community hub for 50+ members to disseminate curated threat intelligence and bug bounty methodologies.
- **Architected** a strategic 2026 roadmap to facilitate peer-to-peer technical mentorship and competitive CTF training.

Bug Bounty Platforms

Remote

Independent Security Researcher (Web & Blockchain)

June 2020 - Present

- Identified and reported 24+ vulnerabilities across 15+ web applications and blockchain protocols, securing critical findings on major platforms.
- Conducted security research on DeFi protocols (Bima Protocol, Omni Network), analyzing Solidity code for common smart contract vulnerabilities and logic flaws.
- Ranked in the top 15% on Hack The Box and TryHackMe platforms by solving complex exploit development and reverse engineering challenges.
- Uncovered high-impact vulnerabilities including CORS misconfigurations, IDOR, XSS, and token approval manipulation in smart contracts.
- Collaborated with the Mumbai security community through BSides and BreachForce to research emerging threat intelligence and TTPs.

Education

Bachelor of Engineering in CSE(IoT and Cyber Security including Blockchain technology)	Byculla,Mumbai
Anjuman-I-Islam's M.H.Saboo Siddik College of Engineering • 7.50	2027

Involvement

ISTE Students Chapter	M.H. Saboo Siddik College of Engineering
Head of Web & Tech	January 2026 - Present

- Direct the technical operations and web development initiatives for the student chapter, managing a team of 5+ members to maintain digital infrastructure.
- Spearhead the integration of cybersecurity awareness programs into the chapter's annual event calendar, reaching 200+ students.
- Collaborate with the college administration to streamline digital outreach and technical event registration, increasing student engagement by 25%.

ThunderCipher	M.H. Saboo Siddik College of Engineering
Campus Ambassador	December 2025 - Present

- **Pioneered** the "ThunderCipher MHSSCE" cybersecurity community in December 2025 to centralize offensive security research and peer-to-peer technical mentorship on campus.
- **Launched** a digital community hub for 50+ members to disseminate real-world threat intelligence, curated bug bounty write-ups, and emerging vulnerability research.
- **Architected** a strategic 2026 roadmap in collaboration with the ISTE student chapter, establishing the inaugural technical committee to manage upcoming VAPT workshops and CTF training.

Skills

- **Security & Research** Penetration Testing, Vulnerability Assessment, Bug Bounty Hunting, Smart Contract Auditing, Threat Intelligence, Digital Forensics, **AI Security Research, Threat Hunting, APT Investigation, AI Governance**, Blockchain Security, Incident Response, Web Application Security, OWASP Top 10, Exploit Development, Reverse Engineering
- **Programming Languages** Python, JavaScript, Solidity, Rust, **KQL (Kusto Query Language)**, HTML, CSS, Bash
- **Security Tools** Burp Suite, Metasploit, Wireshark, Nmap, Autopsy, Remix IDE, OWASP ZAP, Ghidra, IDA Pro, **Microsoft Sentinel**
- **Platforms & Frameworks** HackerOne, Bugcrowd, Intigriti, Immunefi, Cantina, **Agentforce**, TryHackMe, Hack The Box, Hardhat, FastAPI, Google Cloud Platform, Ethereum
- **Professional & Strategic** Structured Problem Solving (MECE), Technical Mentorship, Community Building, Strategic Planning, Technical Documentation
